A Proven Solution

BULL VALLEY
S O F T W A R E
EFFICIENCY DRIVEN INNOVATION™

PowerSchool

PowerSchool® is the leading and fastest growing student information system (SIS) available today, supporting 12 million students in all 50 states and over 65 foreign countries. Last year, more schools and districts selected PowerSchool than any other SIS product on the market. Today, PowerSchool supports a wide range of implementations – including schools as small as 25 students, districts as large as 80,000 students, and statewide deployments.

Impact to Student Achievement

The deep functions of PowerSchool allow today's educators to make real-time decisions about each student while creating a collaborative environment for parents, teachers, and students. Access to real-time information allows student performance to be addressed in a timely manner.

Easy to Learn, Easy to Use

By leveraging the latest web technologies and evolving web design standards, PowerSchool presents users with a clean interface that is easy to learn and easy to use. With over a decade of experience as a completely web-based system, PowerSchool stands alone as the deepest and most flexible SIS available to meet the needs of K-12 schools and districts. Through SIF® Compliance, an open platform, and the ability to share enhancements with other users, PowerSchool allows each customer to easily tailor the best solution for their needs.

DocumentLOK™

The DocumentLOK™ digital document management solution is a powerful suite of modules that gives a school district complete control over its document flow, storage, security, and access.

DocumentLOK™ **for PowerSchool is a fully embedded and integrated solution that works seamlessly with PowerSchool,** allowing a school district to maximize the use of its current business systems and leverage existing technology investments to their fullest extent. Bull Valley Software's hyper-flexible bvINTEGRATOR™ tool seamlessly links DocumentLOK™ with existing business systems to provide immediate, single-click access to scanned documents and other electronically-stored information without ever having to exit the source application.

If you're looking for a way to bring structure, management, and unparalleled security to your ever growing sea of unstructured and unmanaged data, then DocumentLOK™ is a must have solution.

Impact to Student Achievement

Having a reliable and robust document management system in place, especially when embedded into PowerSchool, will not only positively impact students, but the workforce supporting and teaching them. A school district will now have increased administrative efficiency and work flow, reduced paper costs, costs on reduced real estate costs for document storage, security (256 bit encryption) and protection from threats such as fires, floods, natural disasters, system failures, malicious and unauthorized user access. Altogether, assisting school districts with day-to-day operations, at the same time, helping school districts strengthen a student's success.

About Pearson

As the industry leader in SIS and performance solutions, Pearson offers schools and districts access to deep expertise and an unparalleled selection of technologies that address the challenges of achievement, reporting, growth, and scalability. Our student information systems enable schools and districts to leverage technology to ease reporting burdens, open up lines of communication, and simplify internal processes, such as scheduling and grading.

We believe that providing today's schools and districts with a choice of flexible, interoperable, and customizable technology solutions is critical to establishing the infrastructure needed to power performance across all stakeholder groups, be it schools, districts, administrators, teachers, or students.

About Bull Valley Software, Inc.

Bull Valley Software, Inc. is a premier provider of automated capture and document management solutions. DocumentLOK™ integrates with virtually any Windows® or web-based application to maximize an organization's existing technology assets and provide immediate, single-click access to all of its documents and electronic content from within its primary business application(s). Scalable for any organization from the single-user office to the largest enterprise, DocumentLOK™ combines secure document and content management, compliance management, and workflow management in one application – delivering the power and flexibility to adapt to the ever-changing regulatory and technological landscape of today's global business environment.

We pride ourselves on understanding our clients' businesses, listening to their needs, developing plans and leveraging technology to enable them to achieve their goals. To our clients, Bull Valley Software is truly a business partner that is vested in the success of their business, rather than a vendor that is simply performing individual services and tasks. The results are businesses that run more efficiently, service their customers more effectively, and increase profitability.
